

Combat Boat Transport

Transform the transport into an experience

A prototype of the Combat Boat, featuring high power and low weight combined with waterjet propulsion, gives the craft exceptional manoeuvrability and performance.

With our combat boat, we transport you efficiently and comfortably to your chosen destination in the archipelago. We travel more or less in a straight line, ensuring a fast and smooth transfer. Travel time is adapted to distance, weather conditions and any lock passages, but our goal is always the same - that you arrive safely, on time and with a memorable experience along the way.

Our experienced drivers have extensive local knowledge and confidently navigate the archipelago's fairways, straits and open waters.

You can sit back and enjoy the journey while we take care of safety, route planning and comfort. The boat accommodates up to 12 passengers and offers both speed and flexibility. Sit comfortably in the heated cabin or choose a seat out on deck to feel the wind, the sea air and the unique closeness to nature.

Regardless of the weather, we make sure you stay warm and comfortable – life jackets, warm jackets and soft fleece blankets are of course provided for everyone on board.

The prices are based on departure from or return to Stockholm harbour. If you require other locations, the price may be subject to change
