

# T40 Ingmarsö

Archipelago idyll

Welcome to Ingmarsö Krog, a culinary gem in the heart of the Stockholm archipelago, where the sea breeze meets warmth, community, and heartfelt cooking.

Here you will be welcomed with locally sourced food, genuine and personal service, and a relaxing atmosphere that invites conversation, ideas, and creativity. Our menu is inspired by the rhythm of the archipelago - fresh fish, local ingredients, and the best flavours of the season, prepared with love and care.

For a truly memorable experience, we take you on an incredible and scenic journey by T40 from Stockholm's harbour, through the winding waters of the archipelago, before arriving at this archipelago idyll.

Here, among rocky islets and skerries, you can breathe in the scent of the sea and feel the calm of nature - a place that offers a break from both the stress of the city and the noise of everyday life. When everyone is satisfied and content, we take you back to the city.

You can choose between three unique packages, all including either lunch or a three-course dinner, depending on the timing and arrangement.

Beverages are additional and are not included in the stated price.

Tip! For only 2.000 SEK per boat, you can add an extra hour for an even more relaxed meal.
